

Organization for Security and Co-operation in Europe

**Transnational Threats Department
Strategic Police Matters Unit**

Vienna, May 2013

TO WHOM IT MAY CONCERN

It is my pleasure to recommend the global cyber security services of Group-IB to you. During the past year or so, our team at OSCE has received credible information about new types of cyber threats. In addition, we also have received information on attacks to the various government entities and threats to critical infrastructures, including cybercrime activities.

Group-IB has also worked closely with OSCE members and organized training in the fields of forensic and cybercrime investigations. Across the board, we are always pleased with their work.

Group-IB's expertise with regard to their interpretations of cyber terrorism and cybercrime intelligence is supported by their analytics and top notch credentialed technicians.

We believe that their creativity and knowledge of cybercrime strategies led to that success.

Please consider using Group-IB for all your global security corporate needs. I recommend them and look forward to working with them again.

Sincerely,

A handwritten signature in black ink, appearing to read 'Knut Dreyer'.

Knut Dreyer

**Senior Police Adviser to the
OSCE Secretary General**
